## Education

**University of Washington**, Seattle, United States of America

Ph.D., Political Science, expected June 2027

Graduate Certificate, Psychometrics & Applied Analytics, 2026

Graduate Certificate, Political Methodology, 2023

Master of Arts, Political Science, 2023

**University of Essex**, Colchester, United Kingdom

Master of Research, Political Economy, 2019

**University of Barcelona**, Barcelona, Spain

Bachelor of Arts, Political Science and Public Administration, 2013

## Dissertation

*Essays in Methodology and Political Economy* (three-paper format)

Committee: Christopher Adolph (chair), Caitlin Ainsley, Asli Cansunar

1. Labor Union Solidarity, Occupational Risks, and Demand for Redistribution in Europe
2. Coarsened by Design: Measurement Error Bias from Grouped Variables in Interacted Regressions
3. Identifying the Diffusion and Suppression of Political Naming in Turkey with a Matched Interrupted Time Series Design

## Grants & Fellowships

2024 – Richard B. Wesley Graduate Fellowship in Political Economy (ca. \$2,000)

2022 – Margaret Levi & Robert D. Kaplan Graduate Fellowship in Comparative Political Economy (ca. \$2,000)

2020 – Harry Bridges Center for Labor Studies: Graduate Recruitment & Fellowships (ca. \$6,000)

2020 – Center for Statistics and the Social Sciences: Hubert M. Blalock Fellowship (ca. \$3,000)

## Research Interests

**Substantive Interests:** political economy, inequality and redistribution, labor economics, institutional economics, innovation and technological change, industrial relations, political behavior, and comparative politics.

**Methodological Interests:** multilevel and panel data methods, maximum likelihood estimation, Bayesian analysis, measurement and structural equation modeling, Monte Carlo experiments, data visualization, and survey methods.

## Working Papers

1. Labor Union Solidarity, Occupational Risks, and Demand for Redistribution in Europe. (*under review*)
2. Coarsened by Design: Measurement Error Bias from Grouped Variables in Interacted Regressions.
3. Identifying the Diffusion and Suppression of Political Naming in Turkey with a Matched Interrupted Time Series Design.
4. Coarsened Across Borders: Bin Design, Country Heterogeneity, and Measurement Error in Cross-National Surveys. (*in progress*)

5. What's in a Name? Naming Practices as Acts of Political Resistance. (with Asli Cansunar, Nela Mrchkovska, and Can Bodrumlu; *in progress*)
6. Precarious Labor, Income Insecurity, and the Rise of Populism in the United Kingdom and Germany. (*in progress*)

## Conference Presentations

Society for Political Methodology (PolMeth) Annual Meeting – 2026 (poster)  
 American Political Science Association (APSA) Annual Meeting – 2024, 2025  
 European Political Science Association (EPSA) Annual Meeting – 2025

## Teaching Experience

**Instructor of Record**, University of Washington (*expected for academic year 26-27*)

POL S/CSSS 501: Advanced Political Research (Graduate) – 27W<sup>1</sup>

CSSS (number pending): AI-Assisted Workflows for Scientific Research (Graduate seminar) – 27S<sup>2</sup>

**Teaching Assistant**, University of Washington

CSSS 592: Applied Longitudinal Analysis (Graduate) – 26W

CSSS 569: Visualizing Data and Models (Graduate) – 22W, 25W, 26W

CSSS 512: Time Series and Panel Data for the Social Sciences (Graduate) – 24S, 26S

CSSS 510: Maximum Likelihood Estimation (Graduate) – 23F, 24F

CSSS 321: Data Science and Statistics for Social Sciences I (Undergraduate) – 23S, 24W

POLS 249: Introduction to Labor Studies (Undergraduate) – 23W

POLS 371: Global Crime and Corruption (Undergraduate) – 21S, 22S

POLS 307: Religion and World Politics (Undergraduate) – 21W

POLS 270: Introduction to Political Economy (Undergraduate) – 21F, 22F

**Teaching Assistant**, ICPSR Summer Program, University of Michigan

Bayesian Modeling for the Social Sciences II (Graduate) – 25SU, 26SU

Maximum Likelihood Estimation II: Modeling Space and Time (Graduate) – 26SU

Empirical Modeling of Social Science Theory (Graduate) – 25SU

Panel Data and Longitudinal Analysis (Graduate) – 24SU

Introduction to the R Statistical Computing Environment (Graduate) – 26SU

## Research Experience

**Research Assistant – Statistical Consulting**, University of Washington (2025–current)

Center for Statistics and the Social Sciences, **Consulting**, supervised by Prof. **Yen-Chi Chen**

Consulting on statistical research design, implementation, and interpretation for 98 Ph.D. students and researchers across UW departments (ongoing).

**Research Analyst – Data Scientist**, University of Essex (9 months, 2019)

Department of Mathematics, Catalyst Project – **Risk Stratification Team**

Predictive machine learning modeling and analysis, supervised by Prof. **Aris Perperoglou**

<sup>1</sup>Note: two-digit numbering denotes the year, while letters represent academic quarters: F for fall, W for winter, S for spring, and SU for summer.

<sup>2</sup>Seminar approved by the CSSS director; formal course approval in progress (expected November 2026).

## Software & Programming Skills

Advanced: R

Intermediate:  $\text{\LaTeX}$ , Stata, Python

Beginner: Git/GitHub

### Software Development:

- LVM (R): Latent Variable Methods package (under active development)
  - Implements likelihood-based and Bayesian methods for interval-censored and latent variable models, with an emphasis on measurement error in coarsened data.

## Professional Experience

**Auditor and Quality Management Systems Technician**, Pino Automotive Group (2013–2017)

Internal auditing and quality management in the automotive manufacturing sector.

## Languages

Native: Catalan, Spanish

Fluent: English
